PGS Zeit as an app on your phone

On your home screen in one minute – no App Store, no download.

Then you open time tracking with a single tap – just like a normal app. This is what the icon looks like:

iPhone with Safari — iOS

1 Open the page in Safari

Scan the QR code above or enter time.pgs-services.de.

time.pgs-services.de

2 Tap “Share”

The icon with the arrow pointing up – in the bottom bar or in the “…” menu next to the address. (German: „Teilen“)

3 Choose “Add to Home Screen”

Scroll down a little in the menu if you don’t see it right away. (German: „Zum Home-Bildschirm“)

Add to Home Screen

4 Tap “Add”

Keep the name “PGS Zeit”. If you see “Open as Web App”, leave it switched on. (German: „Hinzufügen“)

Add

PGS Zeit

Android with Chrome — Android

1 Open the page in Chrome

Scan the QR code above or enter time.pgs-services.de.

time.pgs-services.de

2 Tap the menu

The three dots at the top right, next to the address.

3 Choose “Install app”

On some phones it says “Add to Home screen”. (German: „App installieren“)

Install app

4 Confirm with “Install”

Tap “Add” if asked. The icon appears on your home screen. (German: „Installieren“)

Install
