CHOOSE YOUR LANGUAGE

On the sign-in page you can switch the language at the top right: Deutsch, English, Polski, Română or Türkçe.

QUICK START

At a glance

Every working day takes just three steps:

1. **Sign in**
   With your personnel number and your personal PIN.
2. **Scan the QR code**
   At your site, tap “Scan QR code” and scan the QR code there.
3. **Choose an action**
   Start work, start break, resume work or end work – then wait for the confirmation.

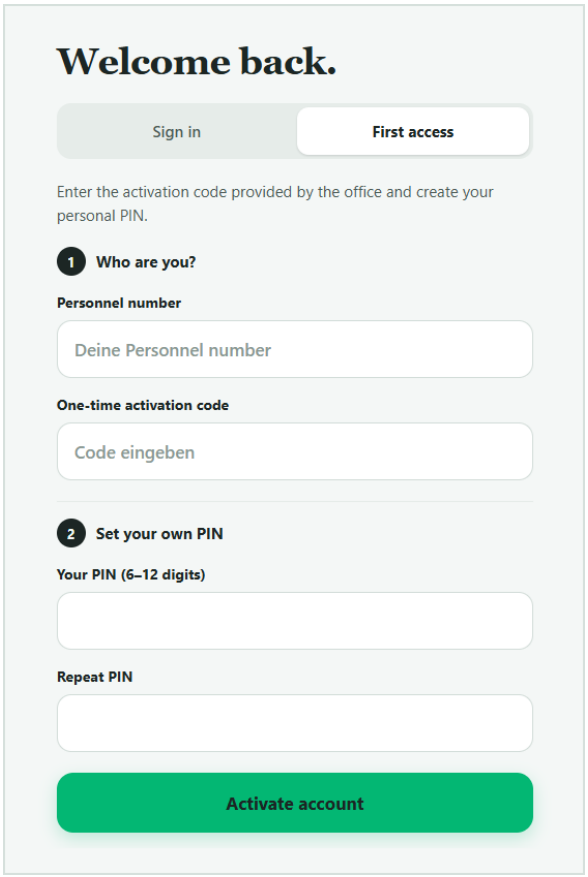

IMPORTANT

Scanning the QR code alone does not record any time. Your time is only saved once you tap the action and the confirmation appears.

STEP 1 · ONLY ONCE

Activate first access

You only do this once. You need your personal access sheet from the office.

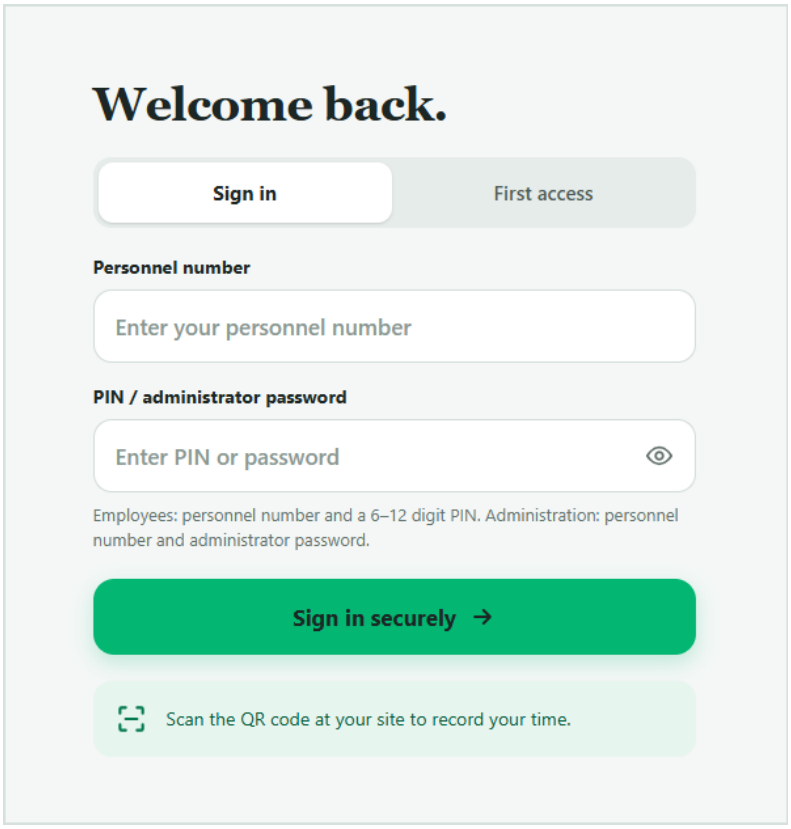

Sign-in page, “First access” tab

1. **Open the sign-in page**
   Scan the QR code on your access sheet or go to time.pgs-services.de.
2. **Tap “First access”**
   The tab at the top, next to “Sign in”.
3. **Enter your details**
   Personnel number and the one-time activation code from your access sheet.
4. **Set your own PIN**
   Choose 6 to 12 digits and enter them again under “Repeat PIN”.
5. **Tap “Activate account”**
   Done – from now on you only sign in with your personnel number and PIN.

> **GOOD TO KNOW**
> The activation code is only valid for the first setup. Never share your PIN and keep your access sheet in a safe place.

STEP 2 · EVERY DAY

Sign in

Sign-in page, “Sign in” tab

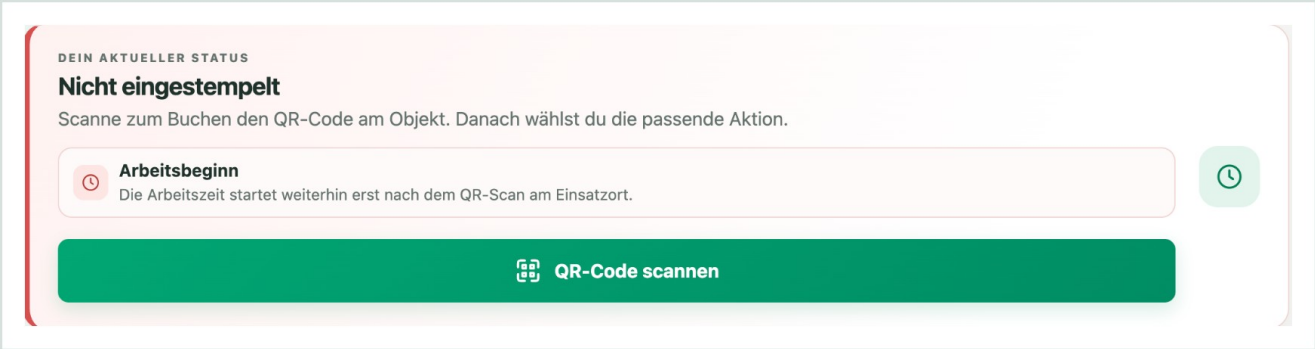

1. **Enter your personnel number**
   The “Sign in” tab is already selected.
2. **Enter your PIN**
   Tap the eye icon to show your PIN briefly.
3. **Tap “Sign in securely”**
   Your personal start page opens.

TIP

Save the page as a bookmark or on your phone’s home screen. Forgot your PIN? Please contact the PGS office.

STEP 3 · AT YOUR SITE

Record time at your site

Your start page: status and “Scan QR code” button (example: German view)

1. **Tap “Scan QR code”**
   Allow camera access if your phone asks.
2. **Scan the QR code at your site**
   Point the camera at the QR code at your workplace.
3. **Tap the right action**
   The booking page opens automatically.
4. **Wait for the confirmation**
   Only then is your time entry saved.

Which action when?

Start work (Arbeitsbeginn)
When you start working at your site.

Start break (Pause starten)
When your break begins.

Resume work (Weiterarbeiten)
When your break is over.

End work (Arbeitsende)
When you finish working at your site.

REMEMBER THE ORDER
Start work → Start break → Resume work → End work. Scan the QR code again for each action.

IMPORTANT
You can only record time at sites assigned to you in your schedule. No confirmation means no time entry.
